IHM CORE VALUES (LEARNING)

Mr Mohan Salgaonkar, Faculty

LEARNING

There are three laws of learning also referred as principles of learning. They are

1. Readiness

Readiness implies a degree of concentration and eagerness. Individuals learn best when they are physically, mentally and emotionally ready to learn and do not learn well if they see no reason for learning.

2. Exercise

The principle of exercise states that those things most often repeated are best remembered. It is the basis of drill and practice.

3. Effect

The principle of effect is based on the emotional reaction of the student. It has a direct relationship to motivation. The principle of effect is that learning is strengthened when accompanied by a pleasant or satisfying feeling and that learning is weakened when associated with an unpleasant feeling.
